Summary

- A highly motivated person with Google Business Intelligence Professional Certificate, Google Data Analytics Professional Certificate and a Bachelor of Computer Science with Honours (Information Security and Assurance).
- Strong analytical and problem-solving skills with experience in data collection, cleaning, analysis, and visualization with proficiency in Spreadsheets, SQL, Tableau and Programming Languages (R & Python).
- Attention to detail and the ability to work effectively in a team where I seek opportunities to apply my skills and knowledge to drive data-driven insights and business outcomes.

Experience

System Analyst

Petaling Jaya, Selangor, Malaysia

PIPELINE NETWORK SDN. BHD. | FULL-TIME

Aug 2022 - Jan 2023

- Tender with the client and contact them about the designated project to ensure it goes smoothly by documenting the requirements. Follow through the Software Development Life Cycle (SDLC), and each phase plays a significant role in submitting upon deadline.

Analyst Intern

Bangsar South, Kuala Lumpur, Malaysia

SETEL VENTURES SDN. BHD. | INTERNSHIP

Mar 2022 - Jul 2022

- I have worked in a team from lead analyst to other interns while solving problems regarding the system and categorizing any incoming flaws—the daily task of updating ticket bugs status and gathering information for dashboard reporting.

RÉSUMÉ ADEEB NIKMAN

Feb 2023 - Present

- Created this Résumé using R (Programming Language) with the Vitae package.

Google Business Intelligence Professional Certificate

Tableau

GOOGLE FIBER CASE STUDY

May 2023 - Jun 2023

- Perform ETL in Google BigQuery, then import the data into Tableau and create visualisations for Repeats by Month, Table, Day 1 Call by Market & Day 0 and Day 1 Calls.

Google Data Analytics Professional Certificate

Tableau

CYCLISTIC CASE STUDY

Feb 2023 - Jun 2023

- Perform ETL in Google BigQuery, then import the data into Tableau and create visualisations for Number of Trips, Seasonality & Top Trips.

Capturing and Retrieval of Risk Assessment and Risk Control Information for Laboratory Experiment

GitHub

FINAL YEAR PROJECT RISK ASSESSMENT AND RISK CONTROL

Feb 2021 - Jan 2022

- I used the Waterfall Methodology starting from planning, analysis, design, development, testing, implementation, and maintenance for the web-based system to make the project as smooth as possible. The tools and software I have used are Python Programming Language, Django framework and SQL (SQLite for the local host, then moved to PostgreSQL during deployment). I uploaded them into GitHub and Heroku to deploy, manage, and scale the app.

Skills

- Spreadsheets - SQL - Databases - Extract, Transform, Load (ETL) - Data Visualization - Tableau - R (Programming Language) - RStudio - Python (Programming Language) - Anaconda

Awards

First Class Honours

Islamic Science University of
Malaysia

Dec 2022

- I completed the Bachelor of Computer Science with Honours (Information Security and Assurance) with First Class Honours, where I got the Dean's List Award for seven out of eight semesters in my pursuit of the Bachelor's Degree.
